

THE • SOAP

Additive-free soap of placenta extract

THE • SOAP

Be shiny my skin!

Handmade soap - boiling horse placenta extract and rare horse oil in a caldron slowly without water

It is a handmade soap made of boiled rare horse oil and the placenta extract which is contained at 20% luxuriously without water. The scent of soap is made from high-concentrated placenta and vanilla beans. As natural aging progresses, the soap changes its shape because of boiling handmade soap in a caldron. It is antiseptic-free and no antibacterial.

The product name: THE • SOAP

The size: 98g

How to use:

Use after makeup removers. Lather the soap with aerating and soaking a foaming net in water. When creamy suds is done, massage your whole face with lather gently. Wash away with tepid or water.

Ingredients:

Horse Fat (especially taking from the base of horse mane) – Horse placenta extract – Ethanol – Sucrose – Hydrogenated Palm Oil – Glycerin – Sodium Hydroxide – Vanilla Beans – Vanilla extract – Trehalose – Sodium chloride

Store Method:

While it's unopened products, keep it in a cool and dark place avoiding high temperature and high humidity. After opening, keep it in well-drained and cool place. In the case of using a bathroom as a drying room, please move it into cool place.

Attention:

Stop using if the ingredients cause skin irritation. Be careful not to put them in the eyes.
